

# **The Eurachem Analytical Measurement Competition 2010**

**Start date: Fri, 26 Mar 2010 09:00:00 GMT**

**End date: Fri, 26 Mar 2010 18:00:00 GMT**

The EAMC is designed to raise awareness among student analysts of uncertainty in measurement and the requirement for excellence in analytical skills. The EAMC Competition is open to teams of two full-time third-level registered students studying laboratory sciences in Universities or Institutes of Technology anywhere in Ireland and who have not yet entered the third year of their course. Competitors are chosen by their own Institution, for their practical laboratory skills. Each Institution may submit a first team (and one reserve team), for the National Final EAMC.

## **At the School of Science, ITSligo**

The Eurachem Analytical Measurement Competition (EAMC) was initiated by Dr Sean Cawley of IT Carlow in 1999. It is promoted by Eurachem Ireland, the Heads of School of Science and Council of Directors of the Institutes of Technology. Industry, academic and state laboratories constitute the Reference Committee\*.

The EAMC is designed to raise awareness among student analysts of uncertainty in measurement and the requirement for excellence in analytical skills. The EAMC Competition is open to teams of two full-time third-level registered students studying laboratory sciences in Universities or Institutes of Technology anywhere in Ireland and who have not yet entered the third year of their course. Competitors are chosen by their own Institution, for their practical laboratory skills. Each Institution may submit a first team (and one reserve team), for the National Final EAMC.

Application entry forms and fees of € 60 per team (cheques must be made payable to EAMC Eurachem Ireland) are due at EAMC Competition, State Laboratory, Young's Cross, Celbridge Co. Kildare on or before the 6th March.
